

## *Residential Customer Testimonials*

### ***Solar in a Box Systems Installed***

*"We get lots of sun here in Arizona and now we can use it as power for our home. We also feel proud we have done something to reduce our dependence on the local utility which keeps increasing our electricity rates."*

***Customer: Jobe Family  
Size System: 2 kW***

*"Solar in a Box is the easiest, fastest and safest solar system to install. We decided to get into the solar business based on Ready Solar's groundbreaking all AC system."*

***Customer: Rick & Karyn Nelson  
Size System: 2 kW***

## *Residential Customer Testimonials*

### ***Solar in a Box Systems Installed***

*"Our solar installer was easy to deal with and had the job done in one day. I think that was due to using Solar in a Box which is already preassembled."*

***Customer: Rockwell Family***

***Size System: 2 kW***

*"This month our Solar in a Box system lowered our electricity charges to zero! We love being able to track our system's production online to see how well it is working."*

***Customer: Mastin Family***

***Size System: 2.5 kW***
